Dear Animal Friends

July 2014

Unfortunately once again I have some sad news today.

3 dogs have disappeared over night at the Centra Coconut Beach Resort Samui in Hua Tanon Sunday night. The management from the Centra Coconut claimed that they caught the dogs and 'rehomed' them which is completely implausible since the 4<sup>th</sup> dog was found poisoned, all happened in the same night and also, the resort did ask us for help to catch them beforehand.

We had an appointment made with the management on Monday morning to go and help catching the 4 dogs living around the Centra Coconut – all of them extremely popular with the tourists.

Thankfully some animal friends were fighting for his life all night long and managed to save him after they found him poisoned on their terrace (Bungalow B110).

Line Aronsen and Silke Nilsen called me in the middle of the night and I told them what to do: Lots of Charcoal Tablets with a lot of water – and in the meantime – raw eggs. LESS suffered terrible cramps and pain but he made it and is now recovering at our shelter. Line and Silke later found peaces of chicken filled with poison close to their terrace.

Everyone knows how fast little children pick up things. I think it's despicable that poison is being thrown on tourists terrace to poison a dog. Thanks to the great help of Line, Eskil Stig and Silje LESS has survived and got a second life.

One day after this happened, Line Eskil and Silje went back to their home in Norway with some pretty horrible holiday-memories...

Below you can find a copy of the Email from the manager of the Centra Coconut. After this email we made an appointment so we could go and help catching the dogs. If a hotel needs to have all dogs removed, I always react directly - the danger that the dogs get poisoned is too big.

Betreff: RE: Catch stray dogs at Centra coconut samui resort.

Dear Birgitt,

We can't catch them. They very fast run. Can you give some anesthetic for me?  
I can collect the anesthetic from Thaling ngam branch by myself because nearby our resort.

Best regards,

Thank you Brigitte,  
Now we can catch them. And put them in the suitable place.  
Thank you.

After writing to the hotel 5 times in order to find out where they moved the dogs to I still got no reply.

It's anyway pretty unbelievable that they were able to catch the other 3 dogs without our help (we have a special aesthetic we use to catch dogs which can be given in food).

There is really only the one explanation: The other three dogs got brutally poisoned - like LESS who was found on the terrace of the tourists.

Unfortunately we only have pictures of two of the three missing dogs:

Please write (in English) to the Centra Coconat Beach Resort Samui and ask them what happened with the dogs and where they are now and also how it was possible to find a poisoned dog there with poisoned chicken close by? Small children could have just as well eaten the poison then as mentioned, Line and Silke said they had also found chicken with poison near by.

And the Team

p.s.: For sure the management won't be able to keep new dogs coming onto the property. If they now receive a lot of complaints from you guys, perhaps they will next time give us the chance to get the dogs before 'catching' the dogs and bringing them 'to a save place' themselves...
