

DOGS IN THE HOUSE IN CHAWENG

I am introducing you here our 'subtenants'. Some of you have already visited us in Chaweng and surely remember the one or the other...

From left to right: PADDY (with 7 months he will fly to Switzerland), FLOCKE (has a broken leg and will later return back to his owner here in Samui), LAM DUAN (will fly to Finland with 7 months), JOIY (will go to Switzerland when old enough), WHITY (is looking for a home in Koh Samui), KOH (will fly to Portugal when old enough), SINTHO (will stay with us until the owner comes back from Bangkok).

Here a few pictures of our 'guests':

PADDY

Paddy arrived at the house when he was about 5 weeks old. He was found on a road side and the mother was nowhere to be seen.

Usually the puppies stay at the puppy house but because he still needed to be fed with the bottle, we decided to keep him in the house and Werner took over the job. Franziska and Jean Claude from Switzerland fell in love with the little one and are now waiting for Paddy to be 7 months so he can start his journey towards Europe.

JOIY

21. March 2010

Franziska and Jean Claude from Switzerland decided to give Joiy a new home too. They bought her in a pet shop where she was sitting in a little cage, waiting for someone to get her out of there...

They first took her to the hairdresser and got her a new fancy haircut. Joiy seems to feel pretty comfortable in with the puppy-play-group.

All the dogs in the picture on the top are between 3 and 4 months old and get along very well, especially when it comes to cat-hunting....

TESCO

19. April 2010

Tesco was found in the parking area of TESCO-LOTUS supermarket in Chaweng. He now lives in our house in Chaweng and we hope to find a good new home for him.

FLOCKE

28. April 2010

SINTHO

3. Mai 2010

Außer den Welpen sind noch auch noch MOLLY und FRANKI vorübergehend bei uns im Haus.

Molly fliegt nach Deutschland und Franki in die Schweiz. Sie warten hier ihre 3 monatige Quarantäne ab. Für die Einreise nach Europa muss eine Tollwutimpfung durchgeführt werden. Nach einem Monat kann ein Test gemacht werden. Danach muss der Hund noch drei Monate in Thailand bleiben. Deshalb dürfen die Welpen auch erst mit 7 Monaten ausreisen.

MOLLY

FRANKI
