

The Temple Project is now in its third year and has proven to be very successful. Hundreds of dogs and cats have been treated without being removed from their familiar environment in and around the temples.

Jay and Linda provide medical care for the dogs and cats at the temples (very serious cases are brought into the shelter and treatment continuous there), all the animals are being vaccinated, dewormed and eventually taken to the shelter for one week to be neutered.

Jay and Linda are working at 18 temples all around the island. Here the latest pictures:

PLEASE SUPPORT US TO KEEP THIS VERY IMPORTANT PROJECT ALIVE!

Unfortunately it was brought to our attention by several sources that the management of Lompraya Ferry Company was poisoning every new young dog or mama with babies that showed up in the area. Lompraya pier is right next to a temple we work at every week, and one female and her 4months old baby we were treating got killed not long ago. We had no choice but to immediately pick up the mother and her 7 babies....

They loved it in the car!.....

.....some of them anyway...

They got a nice warm room in the puppy house.....

The mother and one of her babies had some pretty deep bite wounds which we took care of at the shelter.

Thanks to a lot of advertisement we were able to find homes for all of the babies in with a very short time. The mother dog will stay with us until she is strong enough to be spayed. She will then return to the beach...

One of the monks at Chang Temple told us about a very sick young dog somewhere around the temple area but he hadn't seen it in 2 days. We started searching for her and found her under a monks house, very sick, injured and unable to move by herself.

The little puppy has made a great recovery and the wounds are healing nicely. We are positive that she can soon return to her temple where all her playmates are waiting for her....

LOOKING GOOD!!!!

And this is Copperfield alias Copy!

Copperfield was picked up by Jay and Linda half dead on the road outside a temple in Nathon. As it turned out, Copy was not only suffering from severe mange, bacterial infections and septicaemia, she was also carrying 3 mummified babies inside her.

Thanks to the intense care of everyone involved in Copperfields case, she has managed to make an amazing recovery and is now on the fast track to becoming a healthy, happy dog.

A HUGE THANK YOU TO THE GERMAN VET ANNA AND OUR DR.SITH, FOR ALL THE TESTS AND FOR THEIR SPECIAL EFFORTS WITH COPPERFIELD AND Mr.BEN (another poor soul that needed special treatments)

Thank you Dr. Sith

Thank you Anna!

Miss Copperfield

PRETTY PRETTY LADY 😊

AND SOME PICTURES FROM THE TEMPLE-TEAM.....

We currently deliver 700kg of dog food and 150kg of cat food to the temples every month

THANK YOU FOR YOUR SUPPORT!
